

What is MBA Logistics and Supply Chain and what you will learn?

A two-year specialized program that teaches and trains you on how to manage and run large E-Commerce and Online Shopping businesses.

- ✓ **End-to-End Supply Chain Expertise:** Learn how to manage procurement, inventory, warehousing, transportation, and last-mile delivery across domestic and global markets.
- ✓ **Global Trade Knowledge:** Understand import-export documentation, trade laws, Incoterms, customs procedures, and international supply chain strategies.
- ✓ **E-commerce & Omni-Channel Logistics:** Understand how logistics powers modern retail, from online order fulfillment to last-mile delivery and reverse logistics.
- ✓ **Technology-Driven Curriculum:** Get hands-on training in ERP systems, data analytics, supply chain automation, and emerging technologies like IoT and blockchain in logistics.
- ✓ **Strategic Decision-Making:** Develop the ability to forecast demand, plan capacity, manage risks, and optimize networks using analytical tools and KPIs.
- ✓ **Leadership & People Management:** Learn how to lead large-scale operations, manage warehouse teams, coordinate with vendors, and build cross-functional collaboration.
